

Are You Really Ready for ERP?

A Boutique Readiness Checklist for
Business Central Implementation

FOUNDATIONS

- ✓ We've outgrown spreadsheets and manual systems.
- ✓ Our processes feel fragmented across tools or teams.
- ✓ We want to unify operations — not just digitize them.
- ✓ Our leadership understands that ERP is not just "software."
- ✓ We're not looking for shortcuts — we're looking for clarity.

Team & Ownership

- ✓ We have (or are building) a cross-functional ERP team.
- ✓ We know who'll take day-to-day ownership from our side.
- ✓ We can commit time for internal workshops, reviews, and testing.
- ✓ We're ready to have honest conversations about how we work today.
- ✓ We understand: ERP success depends on us too — not just the implementers.

Vision & Mindset

- ✓ We're clear about why we need this change — not just what we need.
- ✓ We're okay saying "I don't know yet" — and co-creating the answer.
- ✓ We value steady clarity over rushed visibility.
- ✓ We see ERP as a journey — not a checkbox.
- ✓ We're looking for a partner, not a vendor.

Bonus Insight from Yellow Peacock
If you ticked 10 or more — you're ready
for Meridian Pravaah™.

If not, let's start with a Clarity
Conversation. No pitch. Just presence.
