

Clearing the Fog:

# A Strategic Reset for SMEs

From operational chaos  
to coherent systems.  
No jargon. Just clarity.

## The Struggle You Know Too Well

- Outdated ERPs and patchwork processes
- Firefighting every day, with no time to fix the core
- Smart teams, but siloed workflows
- Leaders making decisions with partial visibility

If that sounds familiar, you're not alone. Most SMEs aren't broken. They're just fogged up.
